ATTENTION!! Warranty exclusions

Incorrect installation or connection not in accordance with the product installer's manual, applicable local regulations regarding voltage, hydraulic and electrical connections, water pressure, temperature, etc.

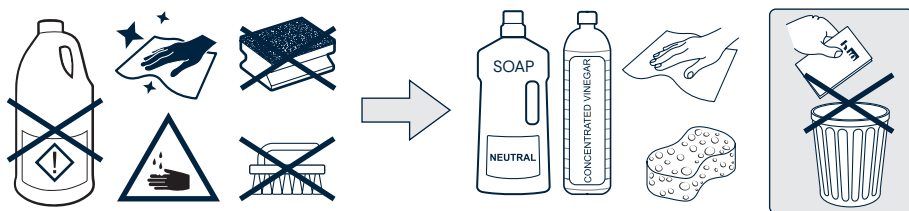

The intervention, manipulation and/or assembly of the hydromassage systems by non-qualified technical personnel, even if this intervention has been partial.

Force majeure due to any atmospheric or geological phenomenon; deficiency, due to excess or defect, in the power supply and abnormal operation due to proximity to antennas, transformers or high voltage power supply towers.

Chemical agents or electrochemical reactions in combination with the material and water.

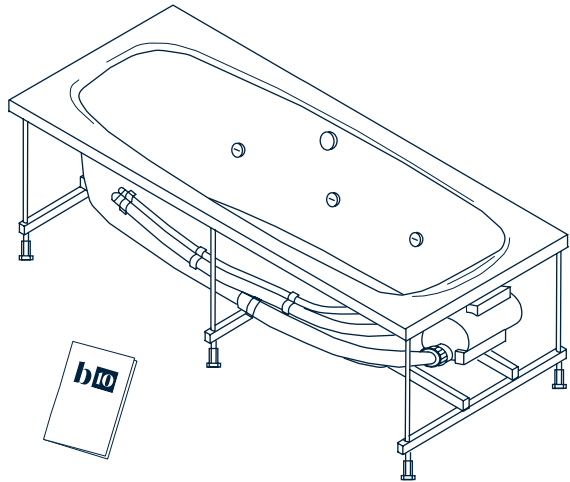

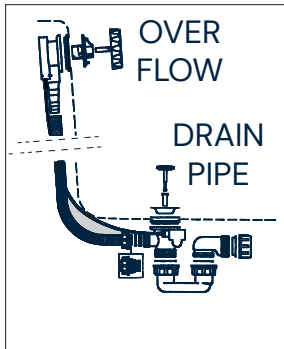

Periodic maintenance of the product is not covered by the warranty.

Inconsistent maintenance of the product in general, as well as damage that objectively cannot be attributed to the company.

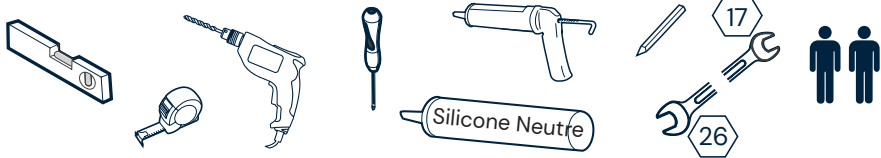

Installation build-in bathtubs

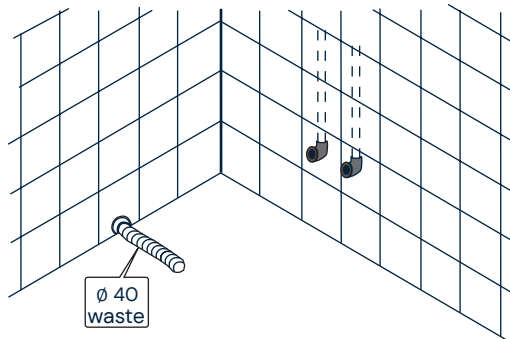

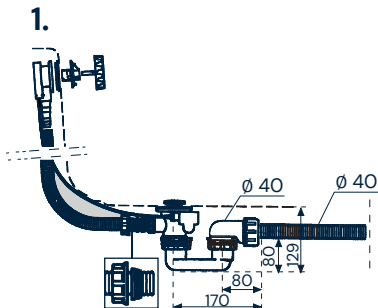

1 Items supplied

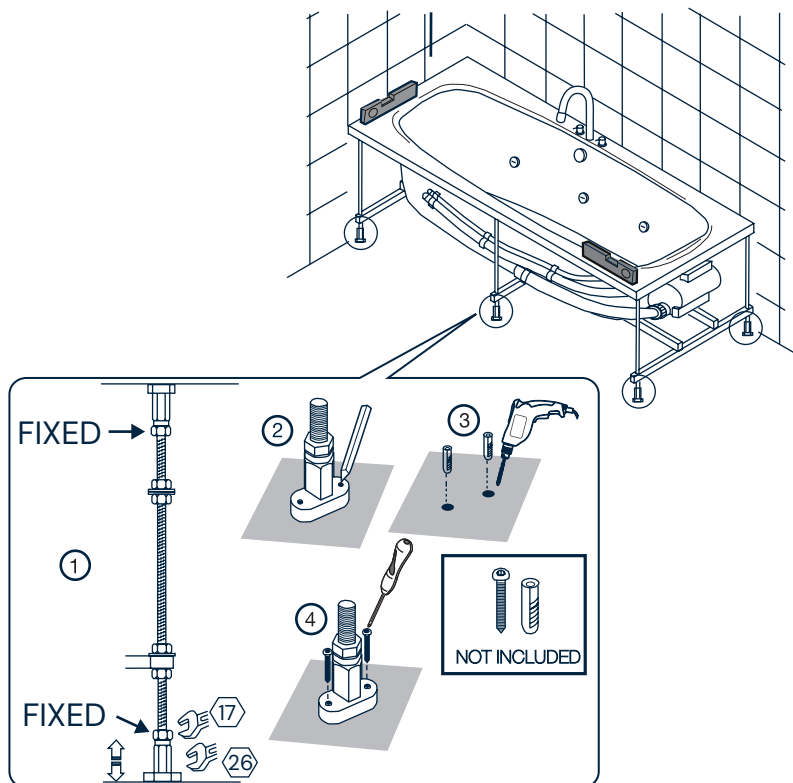

2 Necessary elements

3 Installation

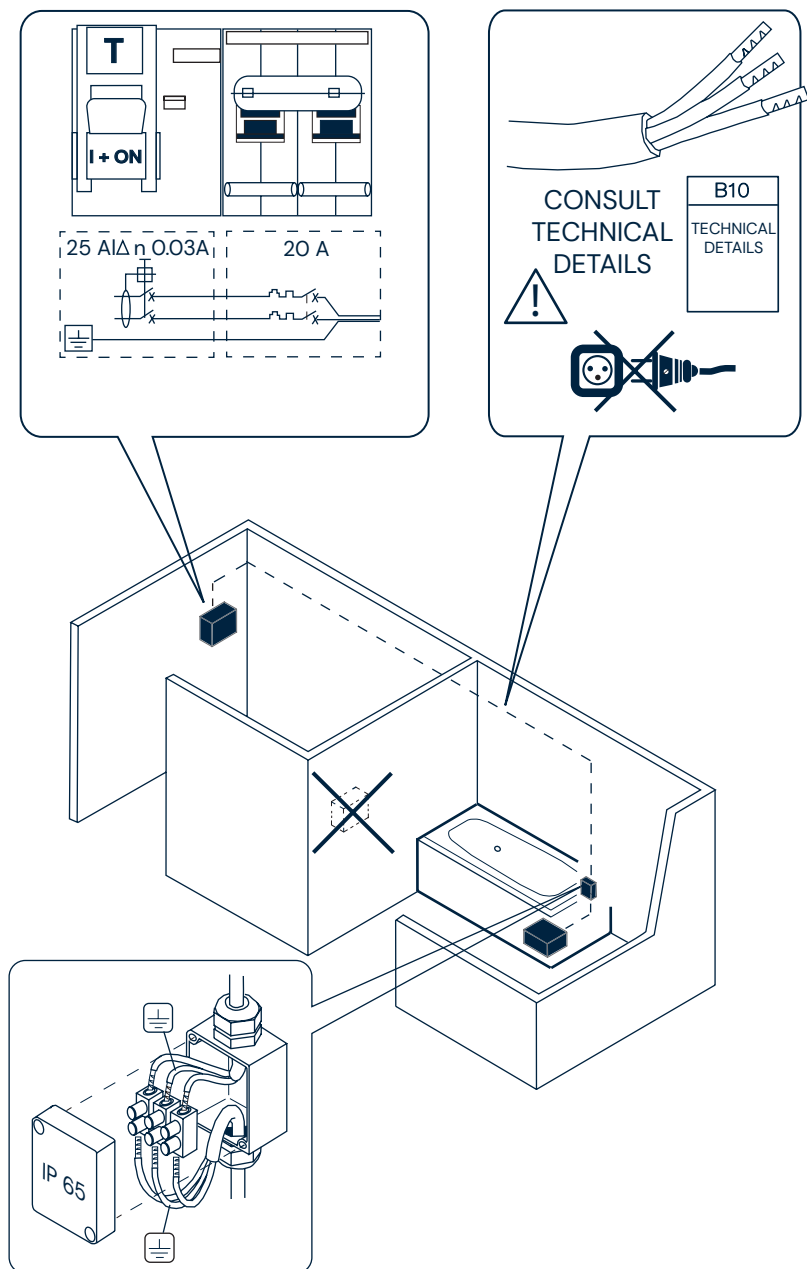

2.

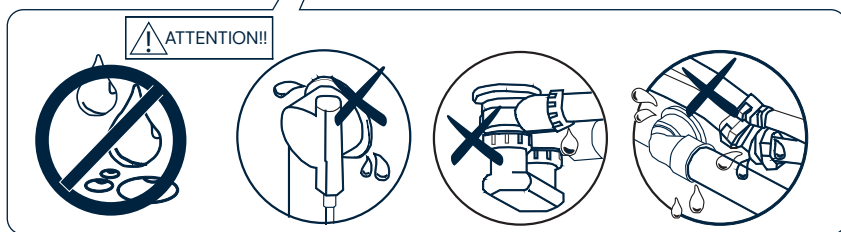

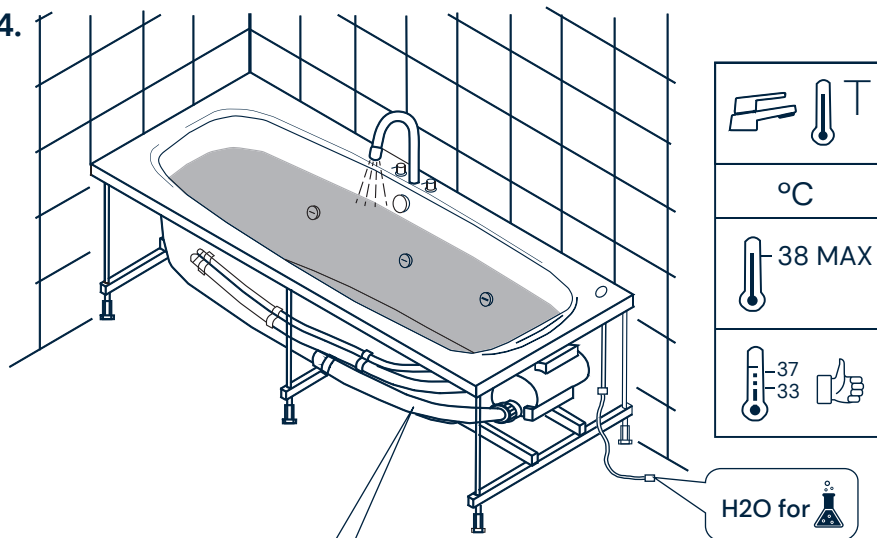

3.

Hydromassage	650W / 850W	2.8A / 3.7A
Airmassage	400W	1.7A
Water temperature maintenance	1000W	4.7A
Spot	2W	
Sanitization	12V	
Cromotherapy	3W

4.

5.

6.

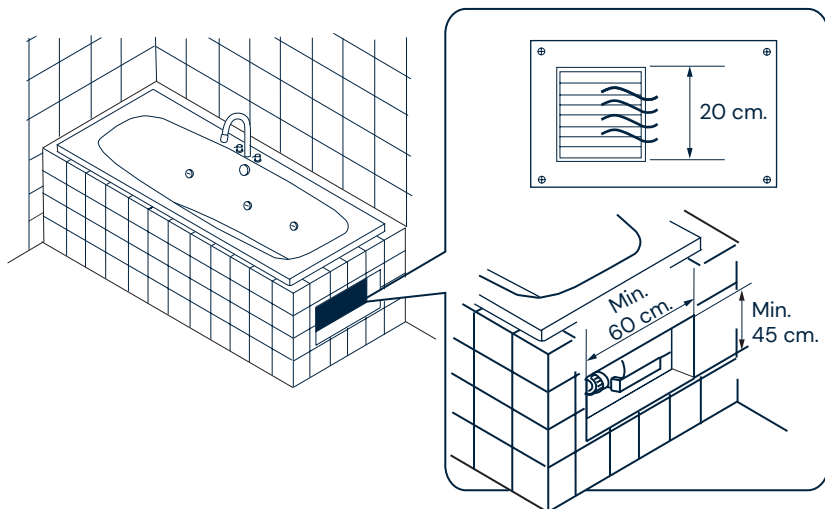

7.

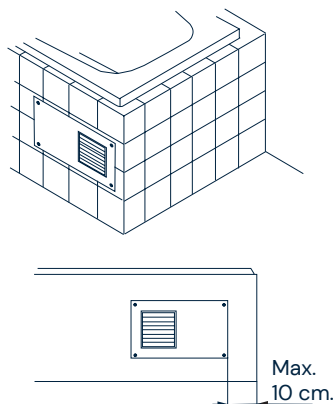

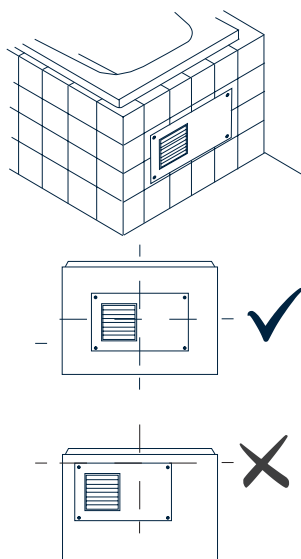

ATTENTION!!

Baños 10 does not recommend that the bathtub be embedded

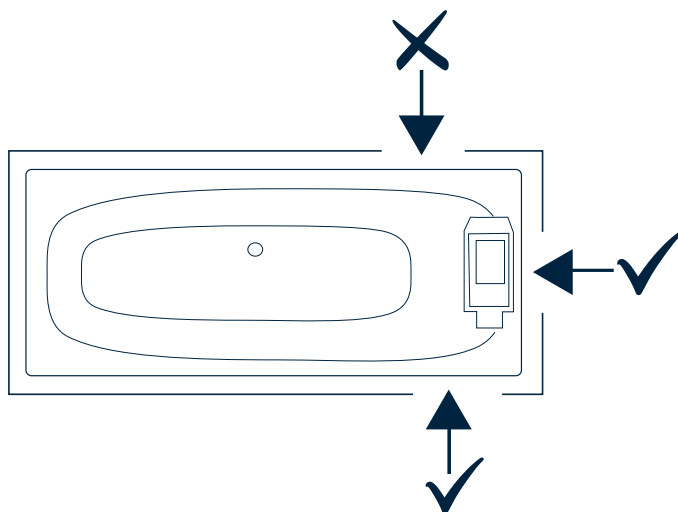

8.

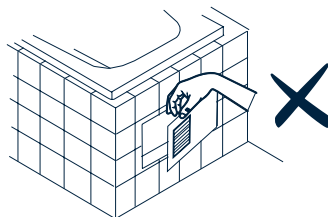

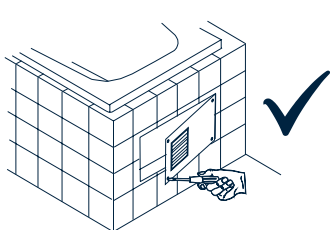

9.

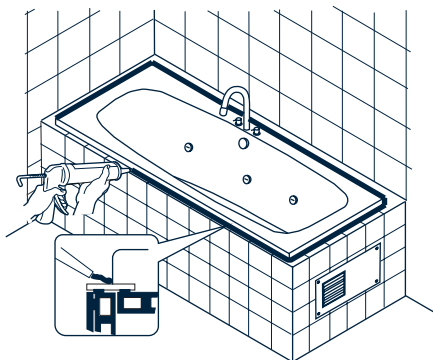

In case of repair, the user will be responsible for the demolition and masonry work

10.

11.

Exclusions de la garantie

Installation incorrecte ou raccordement non conforme à la notice d'installation du produit, aux réglementations locales en vigueur concernant au voltage électrique, les raccordements hydrauliques et électriques, la pression de l'eau, la température, etc.

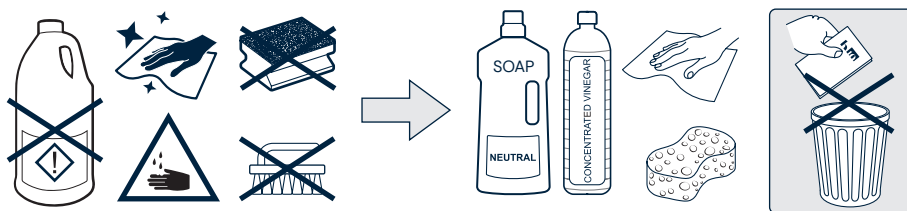

L'intervention, la manipulation et/ou le montage des systèmes d'hydromassage par du personnel technique non qualifié, même si cette intervention a été partielle.

Force majeure due à tout phénomène atmosphérique ou géologique; déficience due à un excès ou un défaut de l'alimentation électrique, fonctionnement anormal dû à la proximité d'antennes, de transformateurs ou de pylônes d'alimentation haute tension.

Agents chimiques ou réactions électrochimiques en combinaison avec la matière et l'eau.

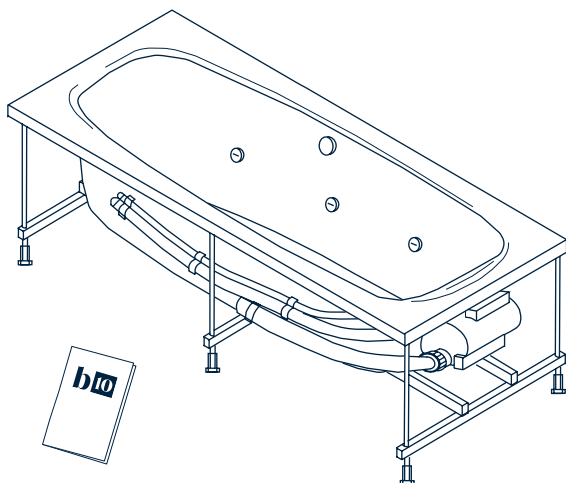

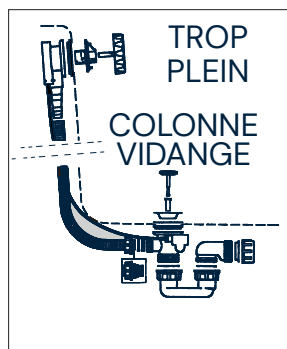

L'entretien périodique du produit n'est pas couvert par la garantie.

Entretien incohérent du produit en général, ainsi que des dommages qui ne peuvent objectivement pas être attribués à l'entreprise.

7.

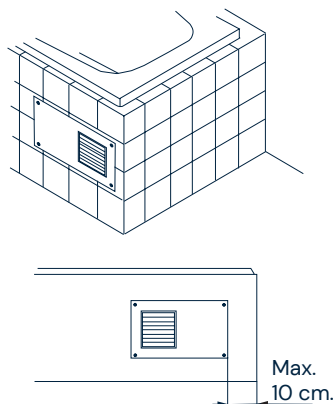

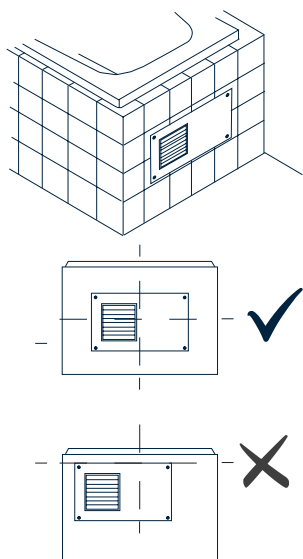

ATTENTION!!

Baños 10 ne recommande pas que la baignoire soit encastrée

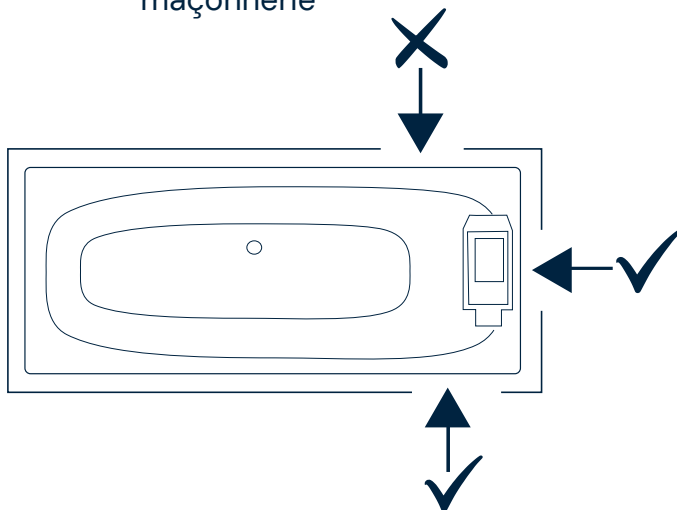

8.

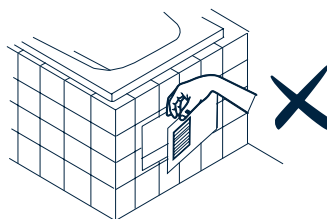

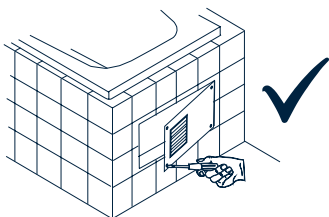

9.

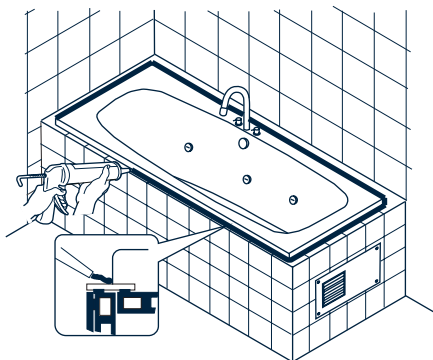

En cas de réparation, l'utilisateur sera responsable des travaux de démolition et de maçonnerie

10.

11.

Exclusiones de la garantía

La instalación o conexión incorrecta no conforme con el manual del instalador del producto, la normativa local aplicable en relación a voltaje, conexiones hidráulica y eléctrica , presión de agua, temperatura, etc.

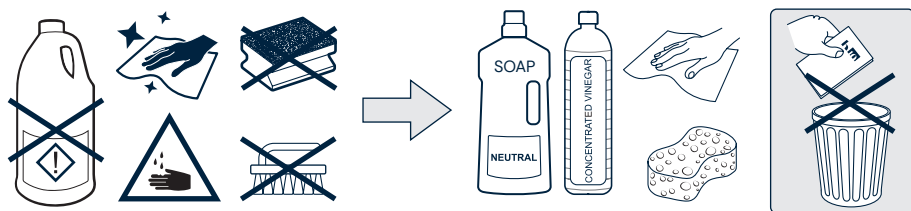

La intervención, manipulación y/o montaje de los sistemas de hidromasaje por parte de personal técnico no cualificado, aunque dicha intervención haya sido parcial.

Fuerza mayor por cualquier fenómeno atmosférico o geológico; deficiencia, por exceso o defecto, en el suministro eléctrico y el funcionamiento anómalo por proximidad a antenas, transformadores o torres de suministro eléctrico de alta tensión.

Agentes químicos o reacciones electroquímicas en combinación con el material y el agua.

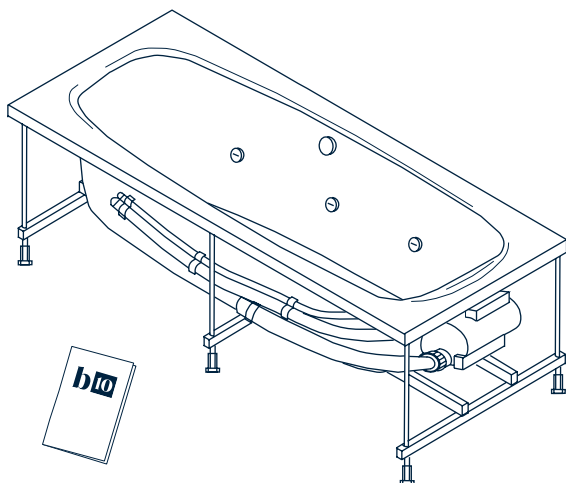

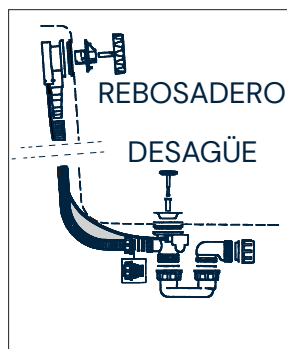

No están cubiertas por la garantía las operaciones de mantenimiento periódico del producto.

El mantenimiento incoherente del producto en general, así como los daños que objetivamente no sean susceptibles de imputar a la empresa.

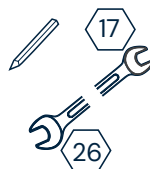

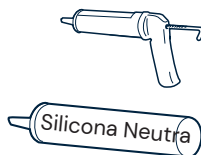

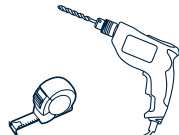

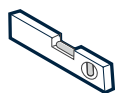

Instalación de bañeras encastradas

En caso de reparación, los trabajos de demolición y albañilería correrán a cargo del usuario

10.

11.

Exclusões de garantia

Instalação incorrecta ou ligação não conforme o manual do instalador do produto, regulamentos locais aplicáveis em matéria de tensão, ligações hidráulicas e eléctricas, pressão da água, temperatura, etc.

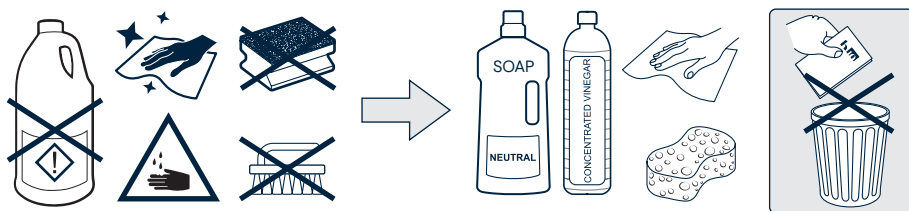

A intervenção, manipulação e/ou montagem dos sistemas de hidromassagem por pessoal técnico não qualificado, mesmo que esta intervenção tenha sido parcial.

Força maior devido a qualquer fenómeno atmosférico ou geológico; deficiência, devido a excesso ou defeito, no fornecimento de electricidade e funcionamento anormal devido à proximidade de antenas, transformadores ou torres de fornecimento de electricidade de alta tensão.

Agentes químicos ou reacções electroquímicas em combinação com o material e a água.

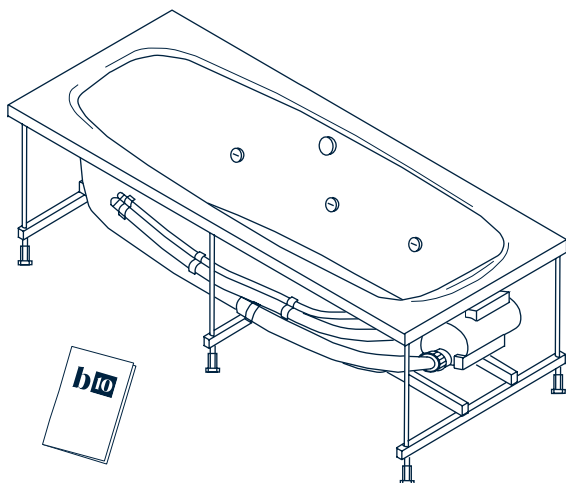

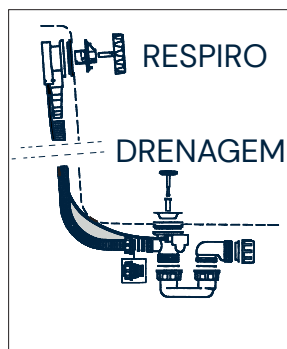

A manutenção periódica do produto não está coberta pela garantia.

Manutenção inconsistente do produto em geral, bem como danos que objectivamente não podem ser atribuídos à empresa.

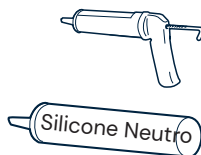

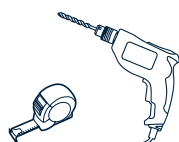

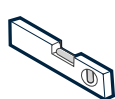

Instalação de banheiras embutidas

1 Elementos fornecidos

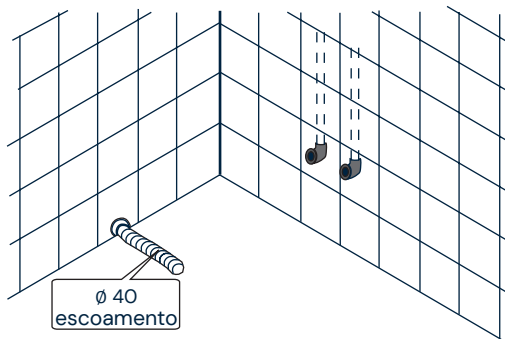

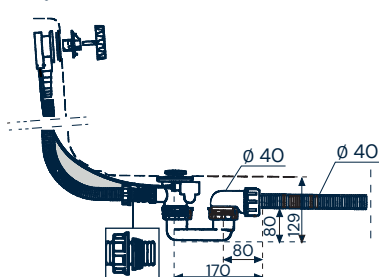

2 Itens necessários

4.

5.

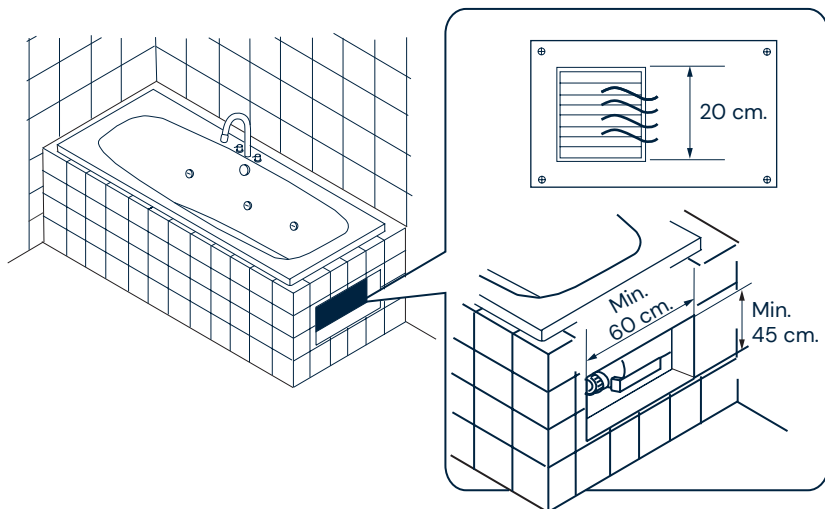

6.

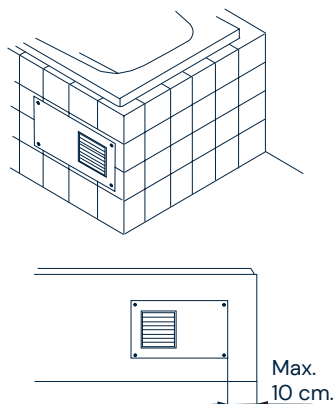

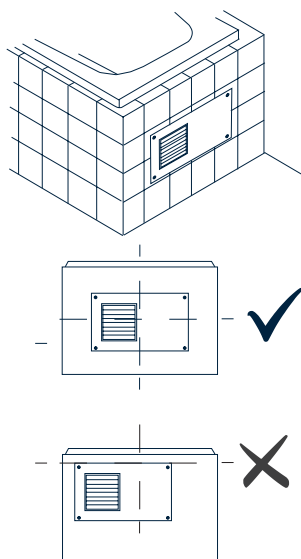

7.

Baños 10 não recomenda que a banheira seja encastrada

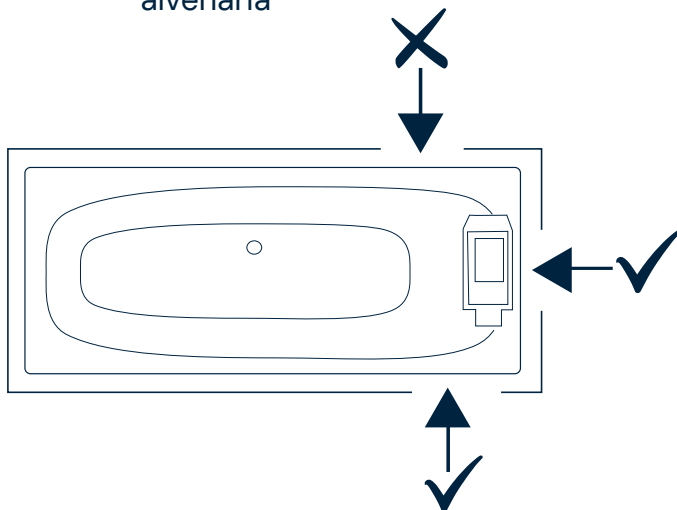

8.

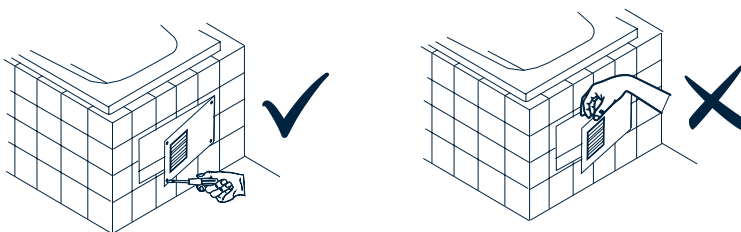

9.

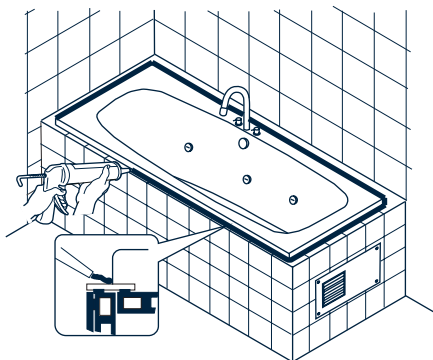

Em caso de reparação, o utilizador será responsável pelos trabalhos de demolição e alvenaria

10.

11.

Esclusioni di garanzia

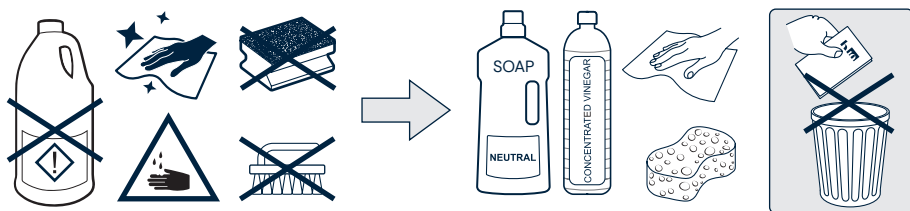

Installazione o collegamento non corretti non conformi al manuale dell'installatore del prodotto, alle normative locali vigenti in materia di tensione, collegamenti idraulici ed elettrici, pressione dell'acqua, temperatura, ecc.

L'intervento, la manipolazione e/o il montaggio degli impianti idromassaggio da parte di personale tecnico non qualificato, anche se l'intervento è stato parziale.

Forza maggiore dovuta a qualsiasi fenomeno atmosferico o geologico; carenza, dovuta ad eccesso o difetto, nella fornitura di energia elettrica e funzionamento anomalo dovuto alla vicinanza ad antenne, trasformatori o torri di alimentazione elettrica ad alta tensione.

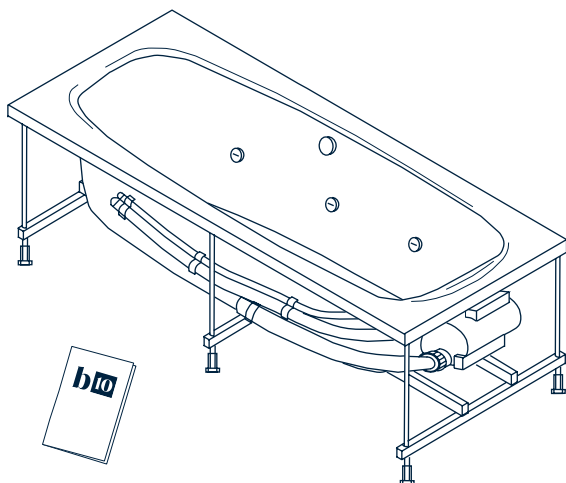

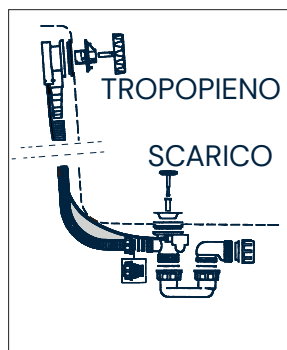

Agenti chimici o reazioni elettrochimiche in combinazione con il materiale e l'acqua.

La manutenzione periodica del prodotto non è coperta dalla garanzia. Manutenzione incoerente del prodotto in generale, nonché danni oggettivamente non imputabili all'azienda.

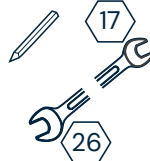

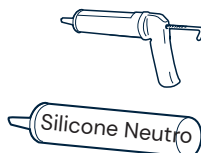

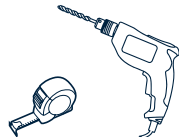

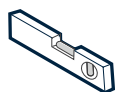

Installazione di vasca da bagno ad incasso

1 Articoli forniti

4.

5.

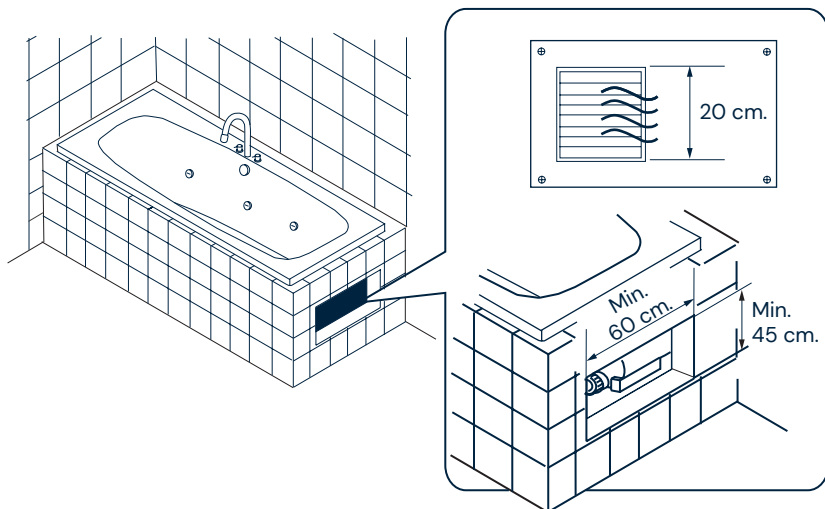

6.

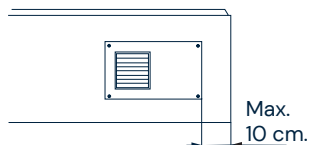

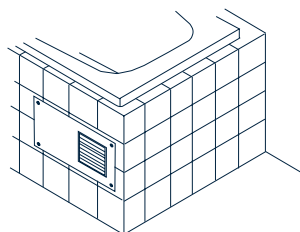

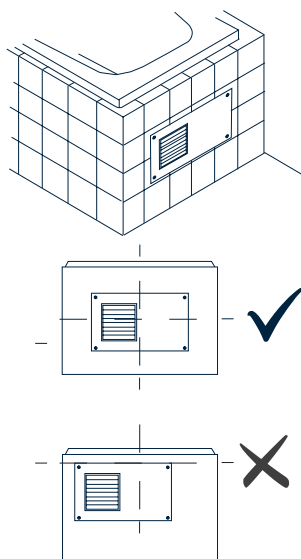

7.

Baños 10 non raccomanda che la vasca sia incassata

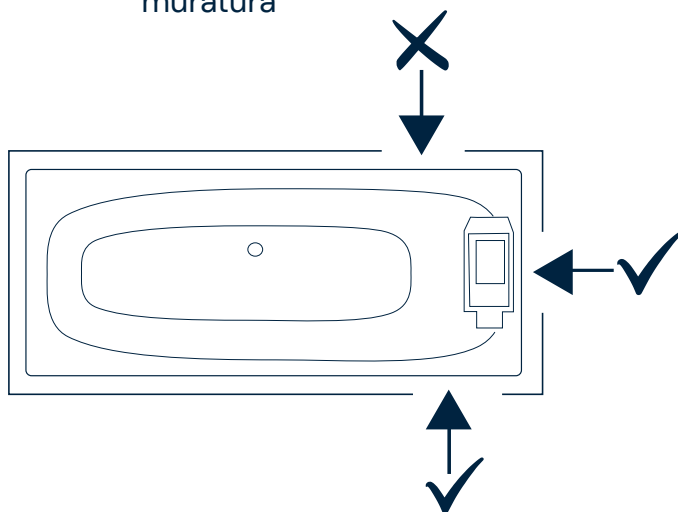

8.

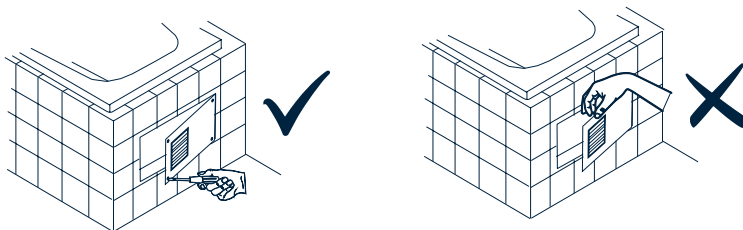

9.

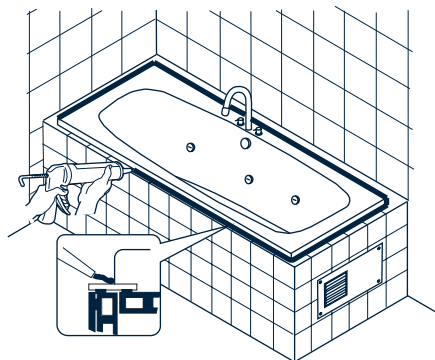

In caso di riparazione, l'utente sarà responsabile della demolizione e dei lavori di muratura

10.

11.

Ausschlüsse von der Garantie

Unsachgemäße Installation oder Anschluss, der nicht mit dem Handbuch des Installateurs des Produkts, den geltenden örtlichen Vorschriften für Spannung, hydraulische und elektrische Anschlüsse, Wasserdruck, Temperatur usw. übereinstimmt.

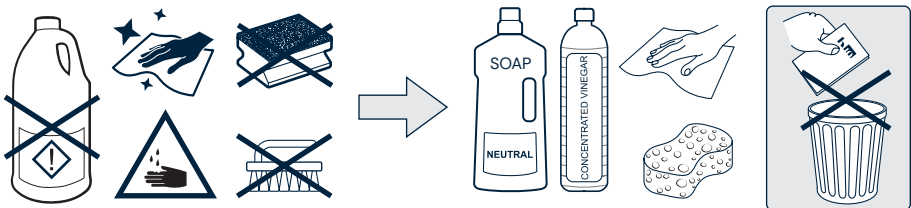

Eingriffe, Manipulationen und/oder Montage der Hydromassagesysteme durch nicht qualifiziertes technisches Personal, auch wenn diese Eingriffe nur teilweise erfolgten.

Höhere Gewalt aufgrund von atmosphärischen oder geologischen Phänomenen; Unzulänglichkeiten aufgrund von Überschuss oder Defekt in der Stromversorgung und anormaler Betrieb aufgrund der Nähe von Antennen, Transformatoren oder Hochspannungsmasten.

Chemische Mittel oder elektrochemische Reaktionen in Verbindung mit dem Material und Wasser.

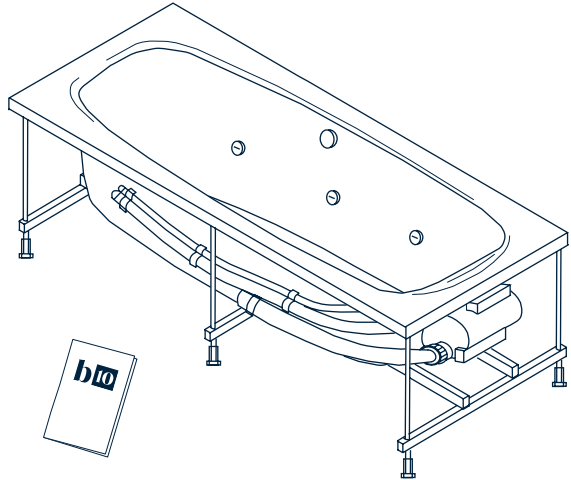

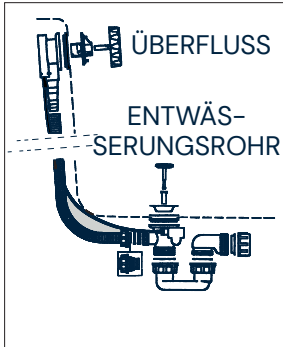

Die regelmäßige Wartung des Produkts ist nicht durch die Garantie abgedeckt.

Inkonsequente Wartung des Produkts im Allgemeinen sowie Schäden, die objektiv nicht auf das Unternehmen zurückgeführt werden können.
